Honorary Degree

Herbert V. Hake

Doctor of Humane Letters

Herbert V. Hake, scholar, historian, artist, and actor, is honored especially for his professional leadership in the fields of drama, radio and television, and for his unusual skill in communication with a wide range of audiences, from children to adults.

Professor Hake received the B.A. degree from Central Wesleyan College, Missouri, and the M.A. degree from the University of Iowa. He was formally educated as a dramatist, and served in such roles as Director of Drama, Port Arthur (Texas) High School; Director of Drama, University of Missouri; Designer and Technical Director of the Black Hills (South Dakota) Playhouse; movie reviewer for the *St. Louis Times*; author of a basic stagecraft textbook; and columnist for the drama magazine, *Lagniappe*.

He joined the faculty of the University of Northern Iowa, then Iowa State Teachers College, in 1938 as theater scene designer and technical director. He also taught speech courses, and largely educated himself in the fields of radio and television, becoming the University's first radio program director in 1942. The University's present stature in public radio broadcasting had its beginnings in his pioneering work, and he was instrumental in transforming radio from a tiny program to one which now boasts two FM stations, including one with 100,000 watts of power, and an FM outlet. To honor this contribution, the University's first FM station, KTCV, has been renamed KHKE.

In 1947, Hake's directorship was expanded to include television. A skilled cartoonist and photographer, he combined these talents with his dramatic abilities to present a weekly television program, "Landmarks of Iowa History," which was part of Iowa TV Schooltime. This series earned a number of awards, among them a first place award given by the American Exhibition of Educational Radio and Television Programs in 1955. Three years later, the series led the National Education Television Network to commission Professor Hake to produce 26 half-hour programs. Called "History with Herb Hake," the shows were used by 36 educational television stations throughout the United States.

Professor Hake also has developed into a widely acknowledged authority on the history of Cedar Falls and Waterloo, the state of Iowa, and the midwestern United States. This knowledge he has shared with school children and adults not only through his radio productions and television series, but also through his books such as *Iowa Inside Out*, *Bicentennial Outlines of Iowa*, and *101 Stories of Cedar Falls*, all of which also make use of his skills in drawing and cartooning.

He was named to the Iowa Broadcaster Association's Hall of Fame in 1976, and was given the Alumni Service Award by the University of Northern Iowa in 1956. He served as President of the Cedar Falls Historical Society from 1972 to 1974, and has remained on its board. He is also a board member of the State Historical Society of Iowa, and has served on a number of other boards and advisory committees for historical societies and radio and television associations.

Not the least of his notable attributes is the warmth of his personality, which facilitates the sharing of his knowledge and talents with all with whom he comes in contact as teacher, speaker, writer, or friend.

The Academic Procession

The President's Party forms the first section of the academic procession. Headed by the commencement marshal, it includes the president, members of the State Board of Regents and of the General Assembly, other platform guests, and the vice-presidents, deans and other principal university officials.

The commencement marshal carries the University Mace, designed and fashioned for the Centennial Commencement in 1976 by Randall Swanson, at that time a freshman majoring in Industrial Arts. A traditional symbol of authority, the mace is a carved wood rod capped with ends of cast bronze, with the top carrying the seal of the University. The sterling silver chain worn by the president was also created for the Centennial Commencement. It was designed and constructed by Martin Peterson, then a junior majoring in art, and it memorializes the historical evolution of the University by carrying the seals of the Iowa State Normal School, the Iowa State Teachers College, the State College of Iowa, and the University of Northern Iowa.

The procession continues with the faculty. The heads of the departments come first, led by the chairperson of the faculty, and the chairperson of the Faculty Senate is the marshal for the remaining faculty.

When the members of the President's Party have arrived at their proper stations, they rise to honor the entrance of the candidates for degrees. Led by faculty marshals, the candidates enter with candidates for the highest degrees first. The candidates for Bachelor of Arts, both in the Teaching Program and in the Liberal Arts Program, enter in four groups, each group representing the candidates from one of the four undergraduate colleges.

The banners which are carried with the candidates' procession were first used in 1977. They were designed by Bekka Lindstrom, at that time a sophomore majoring in Art. Ms. Lindstrom's explanation of the banner designs accompanies the symbols reproduced on page 47 of this program. The banners were fashioned by Phillip Elliott, who also designed the stage setting which you see before you. This was first used for the Centennial Commencement in 1976.

Students wearing gold cords are those graduating with highest honors, a distinction which requires a grade average of 3.75 (4.00 would be all A's).

The academic costumes worn trace their origin to the Middle Ages when long-sleeved hooded gowns were necessary for warmth in the unheated stone colleges. Over the centuries, much diversity occurred, and to bring some order, in the United States in 1894 an intercollegiate system of academic costume was agreed on, now adhered to by more than 760 institutions. According to this code, both the styling and colors of the regalia have significance.

The design of the gown indicates the degree: the bachelor's is a simple gown with a full sleeve. The master's gown is much like it except for the long sleeve which hangs loose. The doctor's gown is fuller and more elaborate. It has velvet edging and three velvet stripes on the full sleeve. The color of this velvet may be black or in the color appropriate to the degree.

Hoods, which are worn over the gowns, are similar for all degrees, although differing slightly in length. The candidates for the bachelor's degrees usually do not wear the hood. The hood has a velvet edging which indicates the area of the degree, and the inside or lining of the hood is satin in the colors of the college or university granting the degree.

A partial list of the degree colors to be found on the edge of the hood or the trimming on the doctor's gown is as follows:

Apricot — Nursing
Blue, dark — Philosophy
Blue, light — Education
Brown — Fine Arts
Citron — Social Science
Copper — Economics
Drab — Business
Green — Medicine
Green Sage — Physical Education

Lemon — Library Science
Maize — Agriculture
Maroon — Home Economics
Orange — Engineering
Pink — Music
Purple — Law
Scarlet — Theology
White — Arts and Letters
Yellow, Golden — Science

Banner Design

1. The education symbol used for the Specialist in Education and the Bachelor of Arts in Education degrees, as well as the College of Education, represents the teacher-student communication.
2. The symbol for the Master's degree represents further study beyond the first four years.
3. The four circles for the Bachelor of Arts degree denote four years of study.
4. The Bachelor of Music and Master of Music degrees are represented on a musical staff.
5. The symbol for the Bachelor of Technology incorporates an industrial and mechanical motif.
6. The area of Business is symbolized by circles in a chain of growth and development.
7. The design of circles in a test tube represents the Sciences.
8. The symbol for the Fine Arts evolved from a color wheel and developed into a representation of all the arts and their common unity.
9. A symbol of the human mind represents the field of Business and Behavioral Sciences.
